tsimane THE ABSOLUTE JUNGLE EXPERIENCE

www.tsimanelodge.com

After an excellent start, we continued to be surprised by these waters.

Yet again, this jungle river rewarded our efforts with great dorado fishing in the best place on earth.

Agua Negra:

AGUA NEGRA

We had the pleasure of sharing the second week of the season with two experienced fisherman, Arthur Hayman (69 years old) and Ralph Gaudio (69 years old). Both from the USA, they hiked the Agua Negra in search of trophy gold and the beauty of the jungle. After a lot of fun with small and medium-sized dorados, they encountered the amazing feeding frenzy of monsters dorados chasing sabalo and both caught some really big fish before enjoying a night camping in the jungle with guides, Miguel and Lucian. Lucas Darcie and Boris Sech were also our guests and both were great anglers who also enjoyed the jungle and the camping.

The Agua Negra and its clear waters showed as again how good and technical this river can be. Loaded with huge dorados and full of aquatic life, this is when we encounter millions of sabalo moving through the pools. This makes for some exciting fishing!

The water was perfect with good temperatures and a good amount of bait in the logs. However, the greatest amount of activity was in the faster water and between rocks. The weather was also perfect throughout the week with good temperatures during the day and perfect nights to enjoy the lodge and the camp.

The results of the week were good with a lots of small dorados as well as some medium-sized fish. There were also approximately 10 fish over 6 kg.

The biggest fish of the week was caught by Arthur Hayman in the Agua Negra, and it was around 22 pounds!

Ready for more adventures,

Sécore:

SÉCURE

After an excellent start, we continued to be surprised by these waters.

With better weather and water conditions, the second week brought us Sandro and Thomas –two anglers from Switzerland, and six South African anglers –Simon, Warren, Graham, Dean, Andre, and Justin.

We decided to go after the same run of dorados as the previous week, which were already in the Upper Secure. For this reason, we decided to make two camps. The first camp was with Thomas and Sandro. They found and fished in every piece of structure and caught many large dorado and pacu. The second camp was where had the South Africans, and that was a very fun experience. They had the chance to spend time with the locals and learn about their relationship with the environment. Within this wild and pristine ecosystem, these anglers caught fish over 20 pounds.

To our surprise, the downstream section had still an unrevealed treasure for us as many fish were holding in every corner of the mystic river, and we even counted a young jaguar within sight of the shore.

Sandro caught the biggest fish of the week – a 23 pound dorado in the Lower Secure.

Yet again, this jungle river rewarded our efforts with great dorado fishing in the best place on earth.

Ready for more adventures,
The staff of Sécure lodge.
